

PEAK PRECISION NUTRITION

KPV-LPT™

ULTIMATE GUT HEALTH SUPPORT†

KPV is a tripeptide (Lys-Pro-Val) based on the body's α -Melanocyte-stimulating hormone (α -MSH) peptide. KPV possesses anti-inflammatory properties, although its mechanisms are still largely unmapped. α -MSH is an endogenous tridecapeptide cleavage product of proopiomelanocortin that has protective and anti-inflammatory effects. The anti-inflammatory activity of α -MSH is reported facilitated by three N-terminal amino acids, lysine-proline-valine, known as KPV. KPV LPT™ is a unique, highly bioavailable, chewable liposomal tablet (LIPOTAB™ LPT™) used to support GUT health. Can be used synergistically with BPC-157 LPT™ - 250mcg 2x daily orally for superior GUT support and healing.
