Omeva™ Complete

FULL-SPECTRUM NORWEGIAN SALMON OIL

Omeva™ Complete delivers what traditional fish oils cannot: a pure, enzymatically derived, whole-source Norwegian salmon oil (OmeGo®) containing the full spectrum of omegas 3, 5, 6, 7, 9, and 11, naturally occurring astaxanthin, and naturally present Specialized Pro-Resolving Mediators (SPMs) — all preserved within the oil's original food matrix.

Unlike conventional fish oils that isolate and highly process EPA and DHA—often stripping away crucial cofactors—Omeva™ preserves the entourage effect of real salmon, offering a broader, more functional range of health benefits. OmeGo® salmon oil (the base oil in Omeva™) has three clinical studies completed, with more pending, showing support for cardiovascular health, inflammation resolution, and general wellness.
